

Dear Parent/Carer

Reading in Year 1

In Year 1, regular reading practice is essential as it allows your child to apply their understanding of phonics and develop their basic comprehension skills.

A little reading each day to an adult, ideally 10 minutes, can have a great, positive impact on your child's enjoyment and attainment in reading. Your child's reading book will be changed when the reading record has been completed to say that they have read their book. Please feel free to add any comments about their reading, such as any particular words which they have struggled with.

At the front of the reading record are some simple questions which you can ask your child. This will allow you to check their understanding of what they have read so far and help them to develop good comprehension skills. If you would like any additional questions or discussion ideas, please feel free to come and ask me.

Thank you for your continued support.

Miss Brook
